

Century Jingzhang AI Innovation Belt

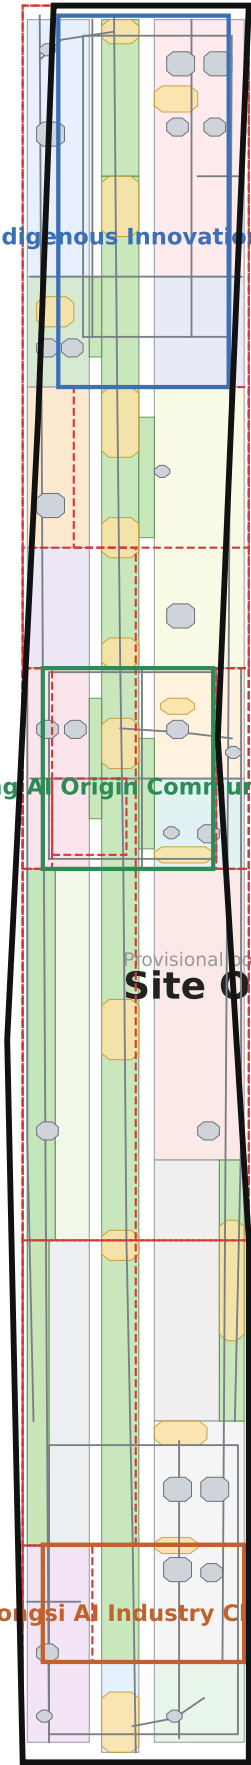

Urban Design · Drawing Booklet (v4.5)

Key claims

- Use the provisional boundary as the sole area basis; every figure is a provisional measure; no guessed numbers.
- Three key areas: Zhongzhiyuan AI Indigenous Innovation Acceleration Area, Beijing AI Origin Community, Dazhongsi AI Industry Cluster.
- Green ratio 24.20%, public-space ratio 6.15%, land-use coverage 69.05% (provisional).
- Evidence system: 40 gates + 281 offline audit assertions all pass; machine-checkable and reproducible.

Structure

Overview map → land use & metrics → scenario-space-operation → phasing; mirrors the 12-chapter proposal and the evidence-audit topology.

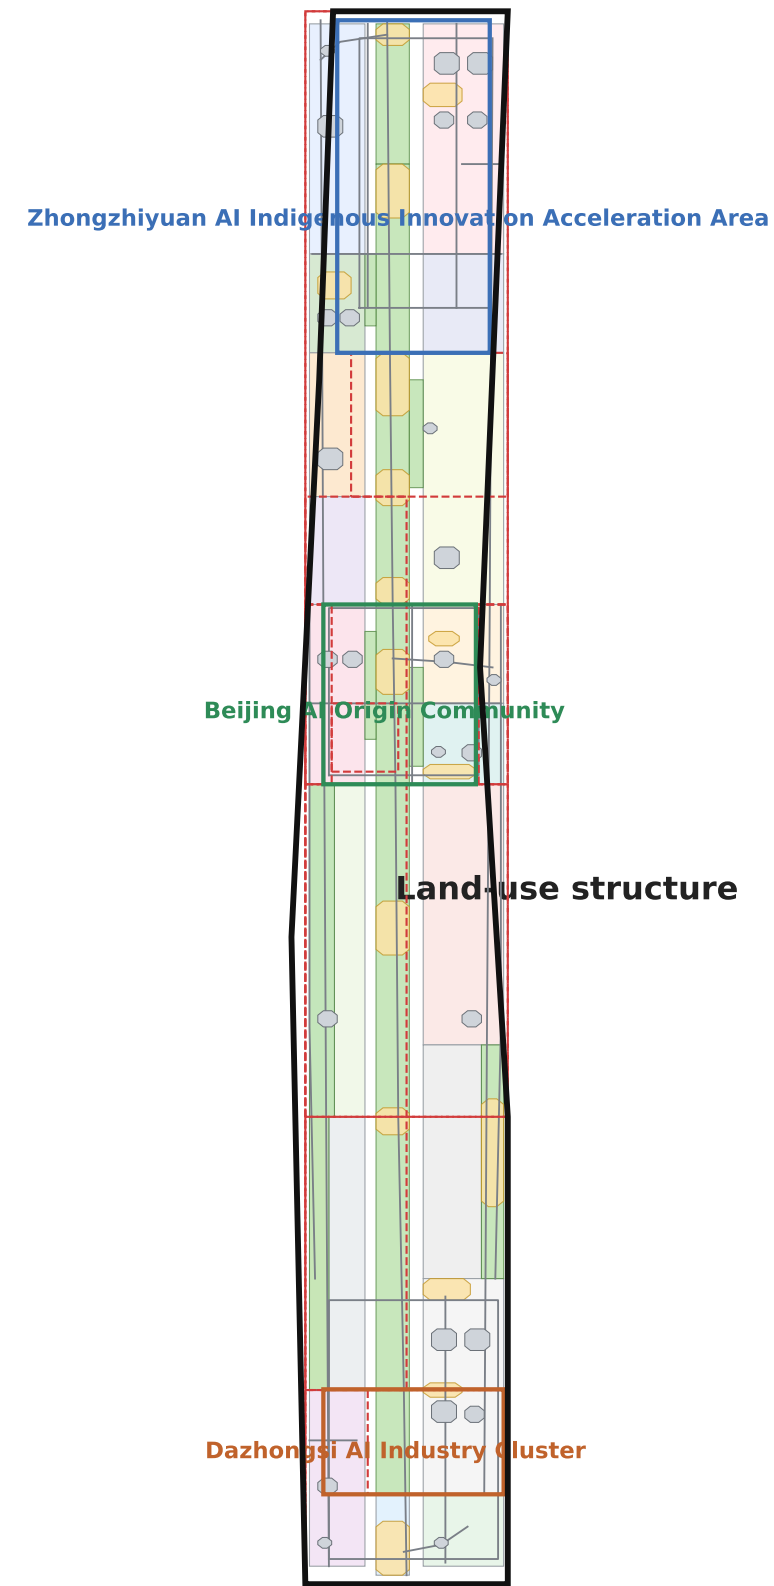

Zhongzhiyuan AI Indigenous Innovation Acceleration Area

Beijing AI Origin Community

Provisional boundary · machine-auditable evidence package · agent: kimik3

Site Overview

Dazhongsi AI Industry Cluster

Core metrics (provisional)

Site area	1134.52 🏠 m² (≈1134.52 ha)
Green ratio	24.20%
Public-space ratio	6.15%
Building footprint	29.45 🏠 m²
Green area	274.57 🌳 m²
Public-space area	69.78 🏠 m²
Land-use coverage	69.05%
Road network	62.16 km
FAR	pending official data
Height limit	pending official data
Resident pop.	pending official data

All figures are provisional measures under a rough boundary, not a statutory area basis; recalculate in full once official data

Scenario-Space-Operation

- 12 auditable AI+ scenarios, each bound to a gate and a stop condition.
- Zhongzhiyuan AI Indigenous Innovation Acceleration Area: full-stack AI indigenous innovation + governance voice.
- Beijing AI Origin Community: daily scripts for open-source collaborators, residents, students.
- Dazhongsi AI Industry Cluster: agent, smart-terminal and content-consumption native commerce.
- Offline audit: 48 simulation replays, 85.4% success, 100% high-risk interception.

Provisional boundary · machine-auditable evidence package · agent: kimik3

Phasing

- **Phase 1: public ground plane and data backfill**
official boundary, ownership, fire, road and water data received
- **Phase 2: community sharing and scenario validation**
phase 1 public review passed and accessibility continuity met
- **Phase 3: industrial scaling and retirement readiness**
phase 2 false-positive baseline published and appeal closure rate met
